| 200 | <div><div>Response body</div><div>["Awards and honors", "Albert Einstein was bestowed with several accolades and distinctions in his illustrious career. In recognition of his groundbreaking research on the photoelectric effect, he was granted the Nobel Prize in Physics in 1921, albeit the nominations that year did not meet the required criteria, resulting in the prize being conferred to him in 1922. Notably, einsteinium, a synthetic element, was named after him as a tribute a few months after his demise in 1955."]</div><div>Download</div></div> <div><div>Response headers</div><div>content-length: 484 content-type: application/json date: Sat,03 Feb 2024 05:08:21 GMT server: uvicorn</div></div> |
